

2026-27 Bountiful Hockey Grade Checks Policy

Bountiful Hockey players are students first and hockey players second. To remain eligible for full participation on the Bountiful Hockey team, each player must maintain a GPA of 2.0 or higher, without a failing grade (No "F" grades), during the hockey season. Failure to produce grades as requested will affect a player's eligibility for game participation.

Each player must submit documentation confirming the player's grades immediately after they are posted in the DSD grades portal. Acceptable documentation is the end of term report card. A screenshot of end of term grades that are not reflective of the minimum standard will result in discussion regarding academic corrective action. The team leadership will work with the player and parent to determine a reasonable "return to play" plan.

This grade check is due no later than 5 days after the posting of term grades. The purpose of this requirement is to assure that each player is achieving, at minimum, a 2.0 Grade Point Average (GPA), with no failing grades. And, to assist the student athlete who is struggling with their academic commitments. Failure to reach or maintain the minimum grades requirement will result in a player being ineligible for games. The player is still expected to attend team practices while remediating their grades. Families may have a stricter grade policy and withholding of hockey game participation which will be honored by the team leadership when that is the parent's preference. It is an expectation and requirement that players maintain their academic performance while participating on the Bountiful Hockey team. The Player/Parent Agreement and Varsity Letter information cover grades as well.
