2. Kickoffs

- d. A goal cannot be scored directly from a kickoff (directly means that no other player from either team touches the ball before it goes into the goal.) If the ball is kicked directly into a goal from a kickoff award a goal kick.

3. Ball in and out of play

- a. The ball is out of play when it has entirely crossed the goal or touch line, either on the ground or in the air.
- b. All balls out of play through the sidelines will be restarted with a throw in. Opposing players stand back from the ball 5 yards.
- c. All balls out of play through the goal line will be restarted with either a goal kick or corner kick. See below for more details.

4. Free Kicks

- a. Only direct free kicks are awarded in 7U – 8U.
- b. A direct free kick is a kick free from interference by the opposing team and from which a goal can be scored.
- c. All opposing players must stand back 5 yards from the ball (in all directions.)
- d. The kicker may not play the ball a second time until another player has touched or played the ball. The punishment for this will be a direct free kick awarded to opposing team at the point the ball was touched a second time (except in g. below.)
- e. The ball is in play only when it has traveled its circumference.
- f. If the kick is awarded for a foul by the defending team committed in its own goal area, the attacking team will take the kick from that point on the goal area line (parallel to the goal line) closest to the point of the foul.
- g. A free kick taken from within a team's own goal area (includes the lines which define the area) must leave the area, as well as travel its own circumference, before it is in play. If it does not, retake the kick.

5. Kick Ins (Not Throw Ins)

- a. When the ball completely crosses a touch line (line on either side of the field,) either on the ground or in the air, it shall be kicked in from (give or take a yard) the point where it crossed the line. All opposing players must stand back 5 yards from the ball (in all directions.)
- b. The team who touched the ball last before it completely crosses the touch line loses possession and the ball is kicked in by the opposing team.
- c. A goal cannot be scored directly from a kick in.

6. Goal Kick

- a. When the ball has completely crossed the goal line, except through the goal, either on the ground or in the air, and was last played or touched by a player of the attacking team, it shall be kicked into play from any point inside the goal area (including the goal area lines) by the defending team.

- a. When the ball has completely crossed the goal line, except through the goal, either on the ground or in the air, and was last played or touched by a player of the defending team, it shall

be kicked into play from the corner arc, on the same side of the goal on which it went across the goal line by the attacking team.

b. Following the game the players from each team should line up at the center line and shake hands.

9. Modifications

a. The second touch rule may be modified depending on the age or skill level of the players. It is more important to have the game be continuous and flowing than to break it up for infractions that are beyond the skill or understanding of the player.

b. No player should touch the ball in the goal box. This is to prevent teams from standing defenders right inside the box (almost like goalkeepers) in order to keep the other team from shooting. Players should be encouraged to go to the ball instead of standing in front of the goal waiting.
