

Corey Williams

Athletic Director/Coach

Email: Hondoathletics@gmail.com

Coach Williams is a graduate of Astronaut High School in Titusville, FL where he earned a basketball scholarship to the State College of Florida (formally known as Manatee Community College).

He later transferred to Allen University, located in South Carolina, where he graduated Cum Laude in 2011, with a Bachelor's Degree in Human Services.

Establishing the Space Coast Stars in 2016, Corey has opened the doors for youth mentorship programs to help teach our youth life lesson skills on and off the court. Coach Williams served as an Assistant Coach for Astronaut High School in 2012. Head coach for Bethany Christian Academy in 2015, where he helped lead the Eagles to a winning season. In 2017 Coach Williams started the Space Coast Stars Jr. Magic league, to help train and teach the basic fundamentals(floor spacing, defense, shooting, importance of teamwork and knowing your role on the court) of the game for kids 5 to 18 years old. Coach Williams was offered the opportunity in 2018 and 2019 to coach and help build up 3 academies in China. In 2019 he was awarded the Jr. NBA coach for the Orlando Magic. In 2021 he won Lead Brevard's 4 under 40 Award. Coach Williams serves on the Palm Bay Youth Advisory Board, Hey Blue Advisory Board, sits on Evans Center Board, and continues to use his platform to inspire change for the next generation.

Coach Williams continued his basketball career overseas, and received offers to play basketball in Ireland, Canada, Germany, and Spain.

Why SCS Academy of Legacy College:

Coach Williams founded SCS Academy on the foundation of what he learned while over in China. China had a poverty rate of 88% which dropped to 0.7% because of Optimism. Coach Williams philosophy is simple “When presented with the right tools, our youth are better prepared for a brighter future”.

Teaching our kids trade while continuing the sport they love will help create this hope, because it gives our youth a chance. A chance to level the playing field when it comes to job placement and skill sets for requires jobs. We are giving our student a chance at life. Sports is good for our mental well-being; it helps reduce depression and anxiety. Through our Academy we can get students out of their environment, outside of their comfort zones, to help challenge them in a positive way to understand different opportunities that sports can bring to their life, and that you do not have to be a pro to be successful, you just have to have the “Pro” mindset (discipline, commitment, structure, always willing to learn. I believe this model will help make a lasting impact in their life. Teach them about the necessary life skills that they need to function as an adult, examples, filing taxes, filling out W-2s, balancing check books, learning how to own and operate their own business.

This opportunity to those who are trying to navigate through life with the necessary life skills, will help create optimism

by ensuring that they have a chance in the work world and to ensure themselves a trade that can help benefit their future life and career goals.
