SINTESIS TV

2031 Commercial Street, San Diego, CA 92113 sintesisty.com.mx

Síntesis TV is a company with more than 30 years of experience and offers objective and truthful information of the Baja California region, and at the National and International level. Síntesis TV has programming for the whole family: News, Sports, Entertainment, Lifestyle, Science and Technology, Music and much more.

Síntesis had its first broadcast on September 9, 1985 on Channel 33, an independent information space, with editorials, cultural, sports sections, solution proposals and constructive criticism, thus revolutionizing television on the border.

In October 1994, Síntesis stopped broadcasting on the channel 33 signal due to issues outside the company, so in early 1995 this information service began radio broadcasts at MVS, managing to capture a very important audience in the region.

It was that impulse that motivated an alliance with the second national television network, so that on March 31, 1995, an eight-year stage began through channels 7 and 13 (21 and 27) of the Azteca network in Baja California

In 2003, with the new millennium, Síntesis TV was born in August of that year, broadcasting purely regional programming 24 hours a day through Cablemás, becoming the station with the highest production of local content in the northwest of the country.

Beyond the border.

Without a wall that separates us, nowadays Síntesis TV also broadcasts on the open television signal in San Diego County on KSDY 50.4 and in Baja California on IZZI on channel 71.

What is PHYSICAL THERAPY?

Physical Therapy is the treatment of disease, injury, or deformity by physical methods.

A safe way to manage and treat pain

Patients may choose physical therapy treatment when...

- · A painful or abnormal condition does not improve with time and medication.
- Desiring to get back to a physical activity as quickly and safely as possible after injury.
- · Avoiding or recovering from surgery.
- Recovering from a work-related injury, sport-related injury, or car accident.
- Needing to regain mobility, strength, and overall function.

Physical therapists can help improve or restore the mobility you need to move forward with your life. If you are looking for a possible alternative to surgery and/or pain medication, consider a physical therapist.

A Personal Wellness Plan Tailored for Your Needs

Your physical therapist will examine you and develop a plan of care using a variety of treatment techniques that help you move, reduce pain, restore function, and prevent disability. ABOUT THE IFL

In 2003, two businessmen in Texas created the six-team Intense Football League. The league grew from six to eight, to ten teams without ever having a game go un-played for five seasons. A year later, several veteran team operators in the Midwest formed a league titled the United Indoor Football Association and enjoyed four years of sucess. During this period, league executives from both sides admired the other's success and afriendship was developed.

In 2008, the suggestion of merger became reality as the two leagues agreed to dissolve their former affiliations to become the new Indoor Football League. In the league's inaugural season in 2009, the league competed with 19 active teams. The Billings Outlaws defeated the River City Rage and were crowned the first United Bowl Champion.

In 2010, the IFL expanded to 25 teams in its second active season. The Billings Outlaws defeated the Sioux Falls Storm to become repeat United Bowl Champions.

2011 brought in new faces and new places to the Indoor Football League. With the addition of new teams in markets such as Oklahoma, Pennsylvania, Arizona and Wyoming, the IFL gave fans more exciting football than ever. The Sioux Falls Storm claimed their first United Bowl trophy as they defeated the Tri-Cities Fever in the United Bowl.

2012 brought an influx of media attention and exposure to the league. The season ended with the Sioux Falls Storm again raising the United Bowl trophy as they defeated the Tri-Cities Fever for a second year in a row.

The 2013 season proved to be one of the most successful in IFL history. IFL team's broke box office records, averaging just shy of 4,000 fans per game. The Sioux Falls Storm pulled off the three-peat, defeating the Nebraska Danger for the United Bowl Championship.

The next three seasons (2015-17) would see the addition of former Arena Football League franchises such as the Iowa Barnstormers, Spokane Shock, and Arizona Rattlers along with other teams including the Billings Wolves and the Wichita Falls Nighthawks.

Fast forward three years later in 2020 and the IFL has grown to 13 member franchises, along with the transfer of teams such as the Quad City Steamwheelers and Duke City Gladiators from the CIF and expansion teams in Tucson, San Diego, Oakland, and Frisco (TX).

Alley - is the area bordered by the outside shoulders of the two offensive guards. The alley is established at the snap and does not move during the down.

Belt - is the area five yards beyond the defensive line of scrimmage. The belt runs sideline to sideline. The belt disappears at the snap.

Blitzer - the player who identifies himself to the offensive team and the officials as a potential blitzer by virtue of his alignment and raising his hand (if two linebackers are present in the box). He must be located in the alley, behind the defensive box at the snap.

Defensive Unit - eight (8) players will be active on the field during scrimmage consisting of three down linemen. The jack-linebacker is not required to be in the defensive box. If he is, the blitzing linebacker must identify himself.

Deuce - in the final minute of each half, the kicking team has the ability to attempt a "deuce" on the kickoff by putting the ball through the uprights. A successful conversion yields the kicking team two-points. A failed attempt will adhere to standard kickoff penalties for kicking the ball out of the back of the end zone.

Field Goal Posts - are ten (10) feet wide by 18-20 feet tall with the bottom cross-bar hung 10 feet above the ground. Field goal posts are hung from the arena ceiling.

Field of Play - game fields are 50-yards long with up to 8-yard endzones. The field is 28-yards wide and marked every five-yards with wall-to-wall lines. 12" hash marks begin five-feet from the center of the field.

In the Bank - means a penalty which cannot be administered on the kickoff, but will be enforced prior to the next from scrimmage. The half may not end with a penalty in the bank. In such cases, there will be an un-timed down.

Offensive Motion - in the Indoor Football League the offense is allowed to have two men in forward motion prior to the snap of the ball.

Offensive Unit - eight (8) players will be active on the field during scrimmage consisting of three down linemen. Four players must be lined up on the line of scrimmage before the snap occurs. Two men can be in forward motion prior to the snap of the ball.

Overtime - there is no limit to the number of overtime periods. Each consists of a series by each offense.

Punt - it is illegal to punt in the indoor game, but a variation is possible by the way of a missed field goal. Field goals that stay in bounds may be returned by the defense. If not recovered, the ball can be downed at the spot by the offense. If the field goal attempt goes out of bounds via the sidelines, the ball will be spotted and placed at the point of exit by the side judge. Should the missed field goal go through the back of the end zone, the ball will be placed at the spot of the kick attempt behind the line of scrimmage.

Rouge - a team is awarded one point for a rouge if any of the following conditions are met:

- 1) A rouge may only be scored on free kicks and is scored when a member of the receiving team is not able to advance a free kick out of his own endzone, or the player is declared down in their own endzone.
- 2) A rouge will be awarded to the kicking team if the receiving team commits a penalty in the receiving team's endzone and the ball has not been advanced out of the endzone.

Scoring - touchdowns are worth six (6) points, conversion place-kicks are one (1) point, conversion pass or run is two (2) points, field goals are three (3) points, a safety is two (2) points, and a rouge is one (1) point.

Stunting or Twisting - When a defensive lineman is rushing the passer, there is no "stunting" or "twisting".
