

Chase Thomas 2026 5'8" PG Columbia, SC: JGBL TOP 80 SHOWCASE AUGUSTA GA

Strengths- Can really score the basketball. 3 level scorer. Has great size for the position. Shot the ball really well with range. Very good off the dribble and can finish with both hands. Competes on both ends

Weaknesses- Settled for the jump shot too much at times. With her ability and size she could put pressure on the defense consistently by attacking to create for herself and others.

Going forward- I think Chase could be a player that shoots 6+ free throws per game. Attacking the basket will not only get her to the line but also open up the 3pt shot where she has the ability to really get it going. Has the potential to be an elite scorer.

Chabria Tate 2027 5'6" PG Evans, GA: JGBL TOP 80 SHOWCASE AUGUSTA GA

Strengths- Strong right driver. Really good with the ball and can create a shot for herself at any time. Physical guard who can finish through contact. Good floater when she attacks left. Confident and competes.

Weaknesses- Handling the ball against pressure. Has to become a better shooter from behind the arc. With her ability she should create more opportunities for her teammates.

Going forward- As Tate continues to improve her shot, creating for others, and going left. She will have a chance to play at a high level. You can't keep her out of the paint. She will be a scoring point guard and with her athleticism and physicality will be able to play off the ball as well.

Blaire Ball 2027 5'7" F North Augusta, SC: JGBL TOP 80 SHOWCASE AUGUSTA GA

Strengths- Good rebounder, plays hard, and always knows where to be and as a result the ball finds her. Good understanding of the game.

Weaknesses- Ball handling and shooting. Ball didn't display any signs of a perimeter game.

Going forward- Will need to develop a perimeter game. Even if Ball is an undersized forward in the future, she can be effective in pick and pop situations and DHO's (dribble hand off) if she improves her ball handling and shooting.

Jazzlyn McMillan 2027 5'8" G Columbia, SC: JGBL TOP 80 SHOWCASE AUGUSTA GA

Strengths- Excels in transition. Has good size for the position. High IQ. Does a great job creating for herself and others. Capable shooter.

Weaknesses- Settles for the jump shot too often. With McMillan's size she should catch the ball closer to scoring areas. Needs to make quicker decisions in the half court setting.

Going Forward- I would like to see Jazzlyn catch the ball closer to the 3pt line. From there I think she can be really dangerous using jabs and pump fakes to get the defender off balance and then using her size to attack the basket. She has the size to score in the paint and the talent to make plays for others. This will set up the jump shot that she loves!
