

CAMPUS ICE CENTRE COVID-19 GUIDELINES

- The health and safety of Ontario Tech University's campus and the broader community has always been the university's top priority. Starting September 3, 2021, Ontario Tech requires all students, staff and visitors coming to campus to be at least partially vaccinated against COVID-19. Further, all are required to be fully vaccinated by October 17, 2021 or have an approved accommodation. For children less than 12 years of age (or not turning 12 in 2021), vaccination is not required at this time.
- Any person associated with your rental group will not be permitted inside the Campus Ice Centre without successfully attesting to the COVID19 protocols as well as confirming full vaccination.
- All participants will have to download the Ontario Tech mobile app, fill out the COVID 19 health screening questions and show proof by screen shot on their cell phone or email verification before entering the building. There will be hard copies available at the arena entrance to fill out if access to the app is not possible.
- The university will also continue to follow all Durham Region Public Health directives, including mask-wearing, hand-washing, frequent testing, and other possible measures, as required.

- Face masks are to be worn by all participants in your rental group upon entering the facility. Face masks must be kept on in the change rooms at all times and can be removed once participants enter the ice surface. All spectators must social distance and face masks must be worn at all times.

- NO food/beverage allowed in the building. Personal water bottles for participation in activity will be exempt. Please arrive with water bottles full.

- Each rental group will be permitted into the building 30 minutes prior to their activity/ice time and must exit 15 minutes after their on-ice session. There will be no early admittance to the facility.

- Each rental will be allowed 40 players/skaters and will have access to 2 change rooms. Masks must be worn at all times while in the change rooms. Coaches, managers, timekeepers, referees are not included in the max 40. You will have access to player benches. Showers will be permitted however, all players must exit the change room 15 minutes from exiting the ice surface so we may clean and sanitize for the next group.

- Spectators (max 200) are allowed.

- Please note: as the vaccination centre is still on site, there is no access to the main entrance, or front reception area. The entrance and exit to the building will be at the south (Zamboni end), until further notice. No indoor warm up areas available.

- Washroom facilities will be available in the change rooms and upstairs in arena #1, until further notice.
